

## Client Testimonials

We were very impressed when we first began our search for office space in Northeast PA at the variety and quality of properties that Mericle had available. What was even more impressive was the service we received after we signed the lease. The Mericle staff has gone well beyond what we could have imagined in assisting us to prepare our new office space. Whether it was setting up for our Grand Opening announcement or meeting our vendors and letting them into our space when we are not available, the Mericle staff has been there for us each step of the way!

We very often need information &lsquo;yesterday.&rsquo; Mericle always came through, exceeding our expectations every step of the way, from the materials they provided to the quick response to our special requests, they were always cordial and professional.

I would like to Thank You for building us a great office space and your professionalism during our suite build-out. I can say that your team has been the most professional team in construction that I have ever worked with and it is greatly appreciated. When it was time for us to move our office space I know it had to be another Mericle property because you made it easy for us to focus on our business. I appreciate our partnership and look forward to growing together for years to come.

Mericle had an understanding of our needs and was able to accommodate them.

I was immediately impressed by the Mericle organization. They are part of a strong local team that was very supportive of us every step of the way. Mericle was the &lsquo;friend&rsquo; we needed to get started. They wanted us to be successful! They offered LASCO a variety of facilities options which made our decision easier. The company&rsquo;s approach is professional and consistent. If we had questions, they pointed us in the right direction. Together we worked through the process of defining a great plan, everything was outstanding and completed according to schedule.

Mericle's property management team does things the right way - not by patching something but by replacing it and fixing it correctly. That's all a tenant can want or expect - responsiveness.

&mdash; Paul Detwiler, ECONOCO CORPORATION

It's understandable that when you're in negotiations, one side has to make money and the other side has to feel that it's getting a good value. In doing business with Mericle, both of us felt good about what we negotiated. That's the measure of a good deal.

A yeoman's job by Rob Mericle and his people &mdash; they are an absolute credit to the community. We gave them a tight schedule to complete the building and they beat the deadline.
